A WORD FROM THE CEO

The Safety and Security sector is one of the most dynamic in the world. Since the company's establishment in 1981, JETEE has played a pioneering role in the introduction and installation of high-tech security and fire systems in Jordan. Today, JETEE is expanding and is in the process of launching its own manufacturing entity and setting up new offices in Qatar and The United Kingdom.

Well rounded client relationships & sustainability, transparency, ongoing development & thought-leadership are at the very core of JETEE's values & professional standards.

JETEE has been and still is a success story that would not have been possible without the contribution of our customers and dedicated employees who have shared our rich journey for more than 30 years now.

JETEE looks forward to remaining a leading company in the region and continuously.

bringing in top notch security and safety systems and offering its clients and customers the best possible packages and services.

CEO and Owner

Kamal Al Abbassi

ABOUT US

JETEE is an ISO 9001 certified leading company for life safety- high technology systems established in Amman Jordan in 1981. The company owns a vivid and impressive profile that enables it to meet the highest standards of excellence and professionalism.

Almost 30 years have passed since the establishment of our company, and with each day our vision and goals are growing even more aiming at keeping its leading and distinguished position in the market.

All throughout this time, JETEE's policy has been to provide the latest safety and security systems to the market alongside with professional experience delivered to the field by highly qualified teams to supply, install and maintain these systems.

JETEE continuously works on expanding its services and offering top of the notch safety systems to meet the requirements and demands of its clients. JETEE makes sure to always propose excellent packages, competitive prices, high technology systems, quality products, installation, maintenance and after sale services.

Today JETEE is witnessing an outstanding growth on regional, managerial and technical levels in order to adhere to the economic development of the kingdom in specific and the Arab world in general.

VISION

JETEE aims to build further on the impressive years of experience of its owner and always stay the first and only choice for customers in need for fire protection and detection solutions.

MISSION

JETEE aspires to maintain its reputable position in the market and expand its products and services to the growing number of clients and meet their demands through excellent package combining competitive prices, high technology, quality products, follow up and after sales service.

QUALITY POLICY

JETEE's strategy is to cater all our customer requirement and provide turnkey solution including design, installation and after sales service of fire and life safety systems in accordance with best professional and up to date engineering practices.

JETEE aims to engineer reliable, high quality solutions that offer excellent value for money and achieve utmost customer satisfaction.

JETEE quality commitment is essential to assure the best possible services utilizing the latest available technologies, through continuous coordination with international resources and employing a highly qualified work force.

To assist us in our aims above we continuously thrive to improve quality and fulfill highest levels of customer satisfaction, we proudly have developed and fully implemented a Quality Management System that complies with the requirements of International Standard ISO 9001:2008.

MATRIX OF ACTIVITIES

Trading
Maintenance
Manufacturing
Engineering Services, Project
Consultancy & Training

TRADING
FIREFIGHTING SYSTEMS

TRADING FIREFIGHTING SYSTEMS SPRINKLERS AND ALARM / DELUGE VALVES

JETEE provides the best and most reliable brands in the industry for sprinkler heads and alarm/deluge valves to cater all hazards including:

Sprinklers

1. Commercial Sprinklers:

- Upright & Pendent & Sidewall Sprinklers
- Concealed Sprinklers
- Dry Sprinklers

2. Storage Sprinklers:

- ESFR Sprinklers
- ELO Sprinklers

Alarm / Deluge Valves

1. Alarm Valves

- Wet Alarm & Dry Alarm Valves
- 175 PSI Rated & 300 PSI Rated
- Flanged, Grooved, FlangedxGrooved connections

2. Deluge Valves

- Electric, Wet and Dry Type Actuated Deluge Valves
- Flange, Grooved Connections

Partners

				
---	---	---	--	---

TRADING FIREFIGHTING SYSTEMS VALVES

JETEE Provides the biggest variety in market for UL Listed & FM Approved Gate ,Butterfly and Check Valves brands to ensure maximum reliability in your fire protection investment.

GATE & BUTTERFLY VALVES

1. OS&Y Valves & NRS Valves:

- Ductile & cast Iron bodies
- 200 , 250 and 300 PSI Rated
- Flanged , Grooved connection
- Size from 2" up to 24"

2. Butterfly Valves:

- Wafer & Grooved Types with built in supervisory switch
- Ductile Iron Bodies with 250 & 300 PSI Rating
- Sizes 1.5" up to 12"

Check Valves:

- Ductile & Cast Iron Bodies
- 200 , 250& 300 PSI Rated
- Flanged , Grooved Connections
- Sizes 2" up to 24"

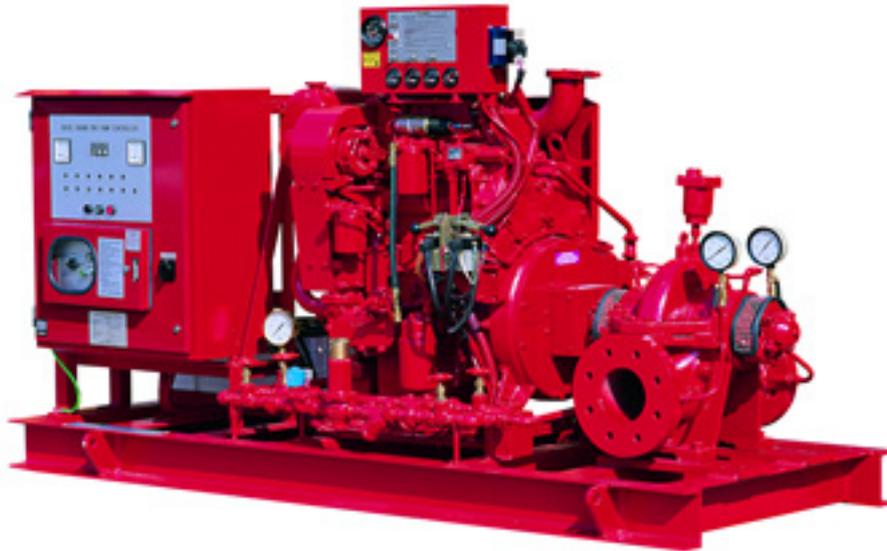

Pressure Reducing / Relief Valve:

- Angle Or Globe Types
- Sizes up to 10"
- Flanged , Grooved Connections

Partners

TRADING FIREFIGHTING SYSTEMS FIRE PUMPS

JETEE provides the biggest range of fire pumps with no compromise on quality since the fire pumping unit is the heart of a fire protection system.

JETEE offers British Standard Compliant LPCB Approved Or NFPA20 Compliant UL Listed / FM Approved pumps to give clients a wide range to choose from according to their project budget.

NFPA 20, FM/UL End Suction Pumps

- Flows Up To 1500 GPM
- Heads Up To 10.9 Bars

NFPA 20, FM/UL Horizontal Split Case

- Flows Up To 5000 GPM
- Heads Up To 44.5 Bars

NFPA 20, FM/UL Vertical Turbine Pumps

- Flows Up to 5000 GPM
- Heads Up to 35.1 Bars

LPCB Approved Pumps

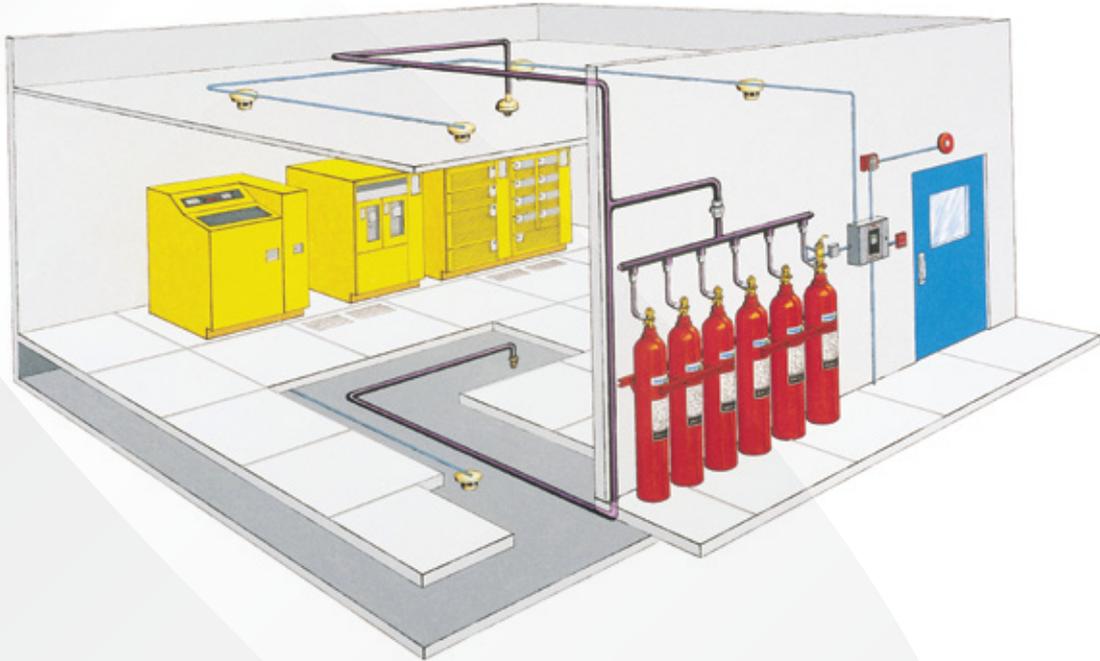

- End Suction Pumps with Flows Up to 8200 L/Min and Heads Up to 15.2 Bars
- Split Case Pumps with Flows Up to 13800 L/Min and Heads Up to 15.7 Bars

Partners

TRADING FIREFIGHTING SYSTEMS FIRE SUPPRESSION SYSTEMS

JETEE was the first company to introduce fire suppression systems into the Middle East Market and still maintains its supremacy in the local market in this field using the latest technologies and innovations.

Clean Agent Fire Suppression Systems:

- FM200®, NOVEC1230®
Fire Suppression Systems

CO2 Fire Suppression Systems:

- High Pressure CO2 Systems
- Low Pressure CO2 Systems

Aerosol Fire Suppression Systems

Commercial Kitchen Wet Chemical Fire Suppression Systems:

- UL 300 Compliant and Approved

Inert Gas Fire Suppression Systems:

- Argonite Fire Suppression System
- Inergen Fire Suppression System

Partners

TRADING FIREFIGHTING SYSTEMS FIRE HOSE CABINETS AND EXTINGUISHERS

JETEE is the market leader in manufacturing and supplying quality Fire Hose Cabinets and Fire Extinguishers having LPCB and UL Approvals.

Fire Hose Reel/Rack Cabinets:

- ¾" & 1" Fire Hose Reels, available in Manual or Automatic types, LPCB Approved
- 1 ½" & 2 ½" Fire Hose Racks, UL/FM Approved
- Fire Hose Cabinets Available in Single Door, Double Door, Vertical Combined Doors
- Mild Steel, Stainless Steel and other optional finishes

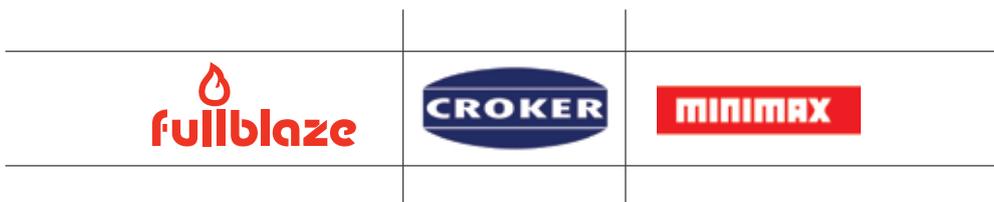

Landing Valves/Hydrant Cabinets:

- Hydrant Hose House containing 2 ½" textile hoses and related accessories
- Mild Steel, Stainless Steel Finishes

Fire Extinguishers:

1. Portable ABC Dry Powder, CO₂, Water, Wet Chemical & Foam Extinguishers, LPCB or UL Approved
2. Mobile Dry Powder & Foam Extinguishers

Partners

TRADING FIRE FIGHTING SYSTEMS HYDRANTS, LANDING VALVES AND BREECHING INLETS

JETEE provides A wide range of Standpipe system components complying to all accepted standard in the region Including BS or NFPA Type.

Hydrants 2 Way And 3 Way:

- NFPA Complaint, UL/FM listed & Approved, Wet Type or Dry Type
- BS Compliant PSB - TUV Approved Wet Type

Breeching Inlets:

- BS Compliant, Kite mark Approved with 2 or 4 Way Inlets
- NFPA Compliant, UL Listed FM Approved with 2 or 4 Inlets

Landing Valves:

- BS Compliant kite mark Approved, Threaded Or Flanged
- NFPA Compliant, UL Listed FM Approved

Partners

				
---	---	--	---	---

TRADING FIRE FIGHTING SYSTEMS FOAM SYSTEMS

JETEE was the first company in Jordan to provide foam system solutions for special hazard projects.

JETEE has unparalleled engineering capabilities in foam system design and equipment supply to satisfy our customers and protect their high value projects like Refineries, aircraft hangars, tank farms and chemical storage hazards.

Bladder Tanks & Foam Concentrates:

- 50 Gallons Up to 4000 Gallons Bladder Tanks & Proportioning Equipment, UL/FM Approved
- AFFF, FP, FFFP, AR-AFFF Listed Foam Concentrates, UL Listed

Foam Chambers, Cooling Nozzles/Foam Sprinklers:

- Rim Seal Pourers For Floating Tanks
- Foam Chambers for Fixed Roof Tanks
- Cooling Nozzles For Tanks & Water Foam Sprinklers for Loading Bays

Foam Monitors:

- Manual, Self Oscillating & Remote Controlled Monitors for Small & Large Flow Rates

Foam Pumps:

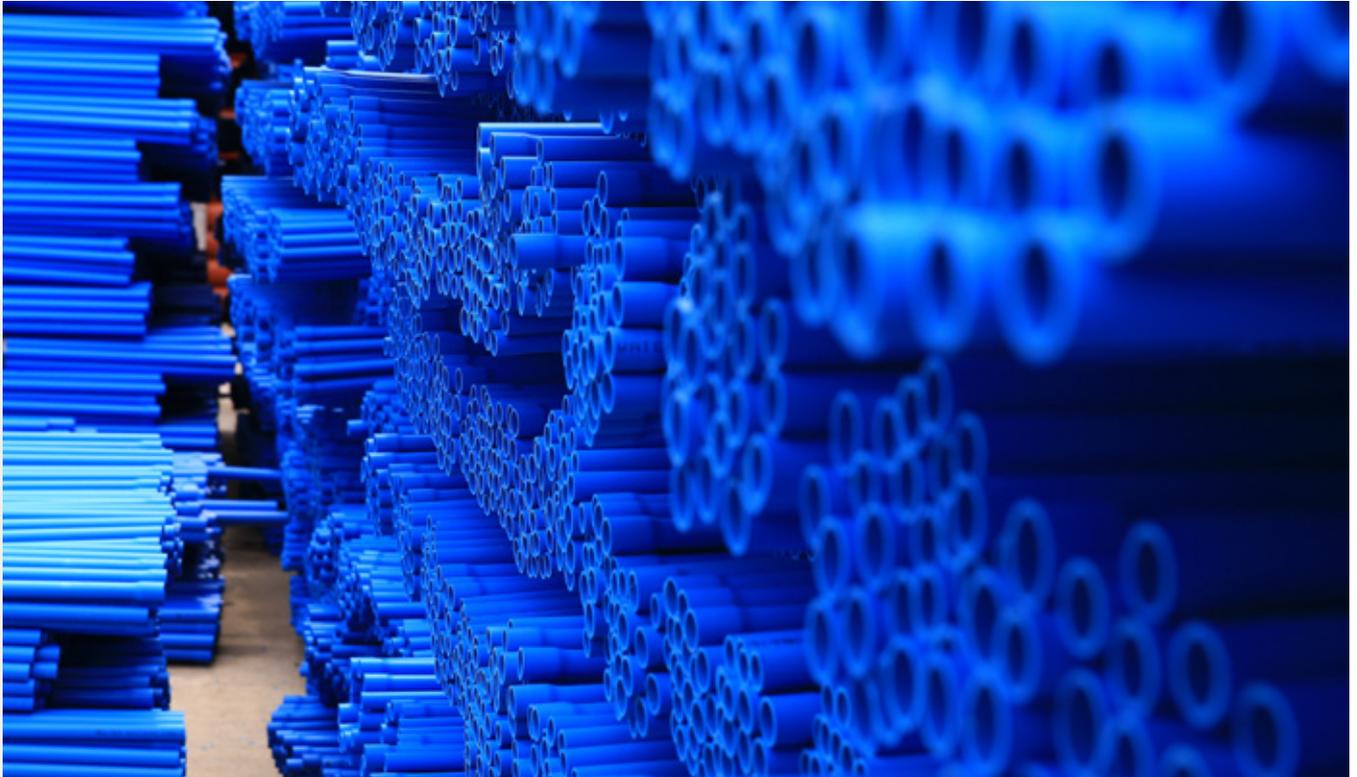

- Rotary Gear Foam Displacement Pumps, UL Listed FM Approved For Special Hazard Projects

Partners

TRADING FIRE FIGHTING SYSTEMS PIPING SYSTEMS & FITTINGS

JETEE completes its extensive range of supply for fire protection systems with quality piping systems and fittings from the best manufacturers worldwide having certified UL and/Or FM Approved products and complying to ASTM, AWWA and BS-EN Standards.

Steel Pipes:

- Pipes complying to ASTM A53/A106, UL Listed
- Pipes complying to BS-EN Standard

Malleable Iron Threaded Fittings:

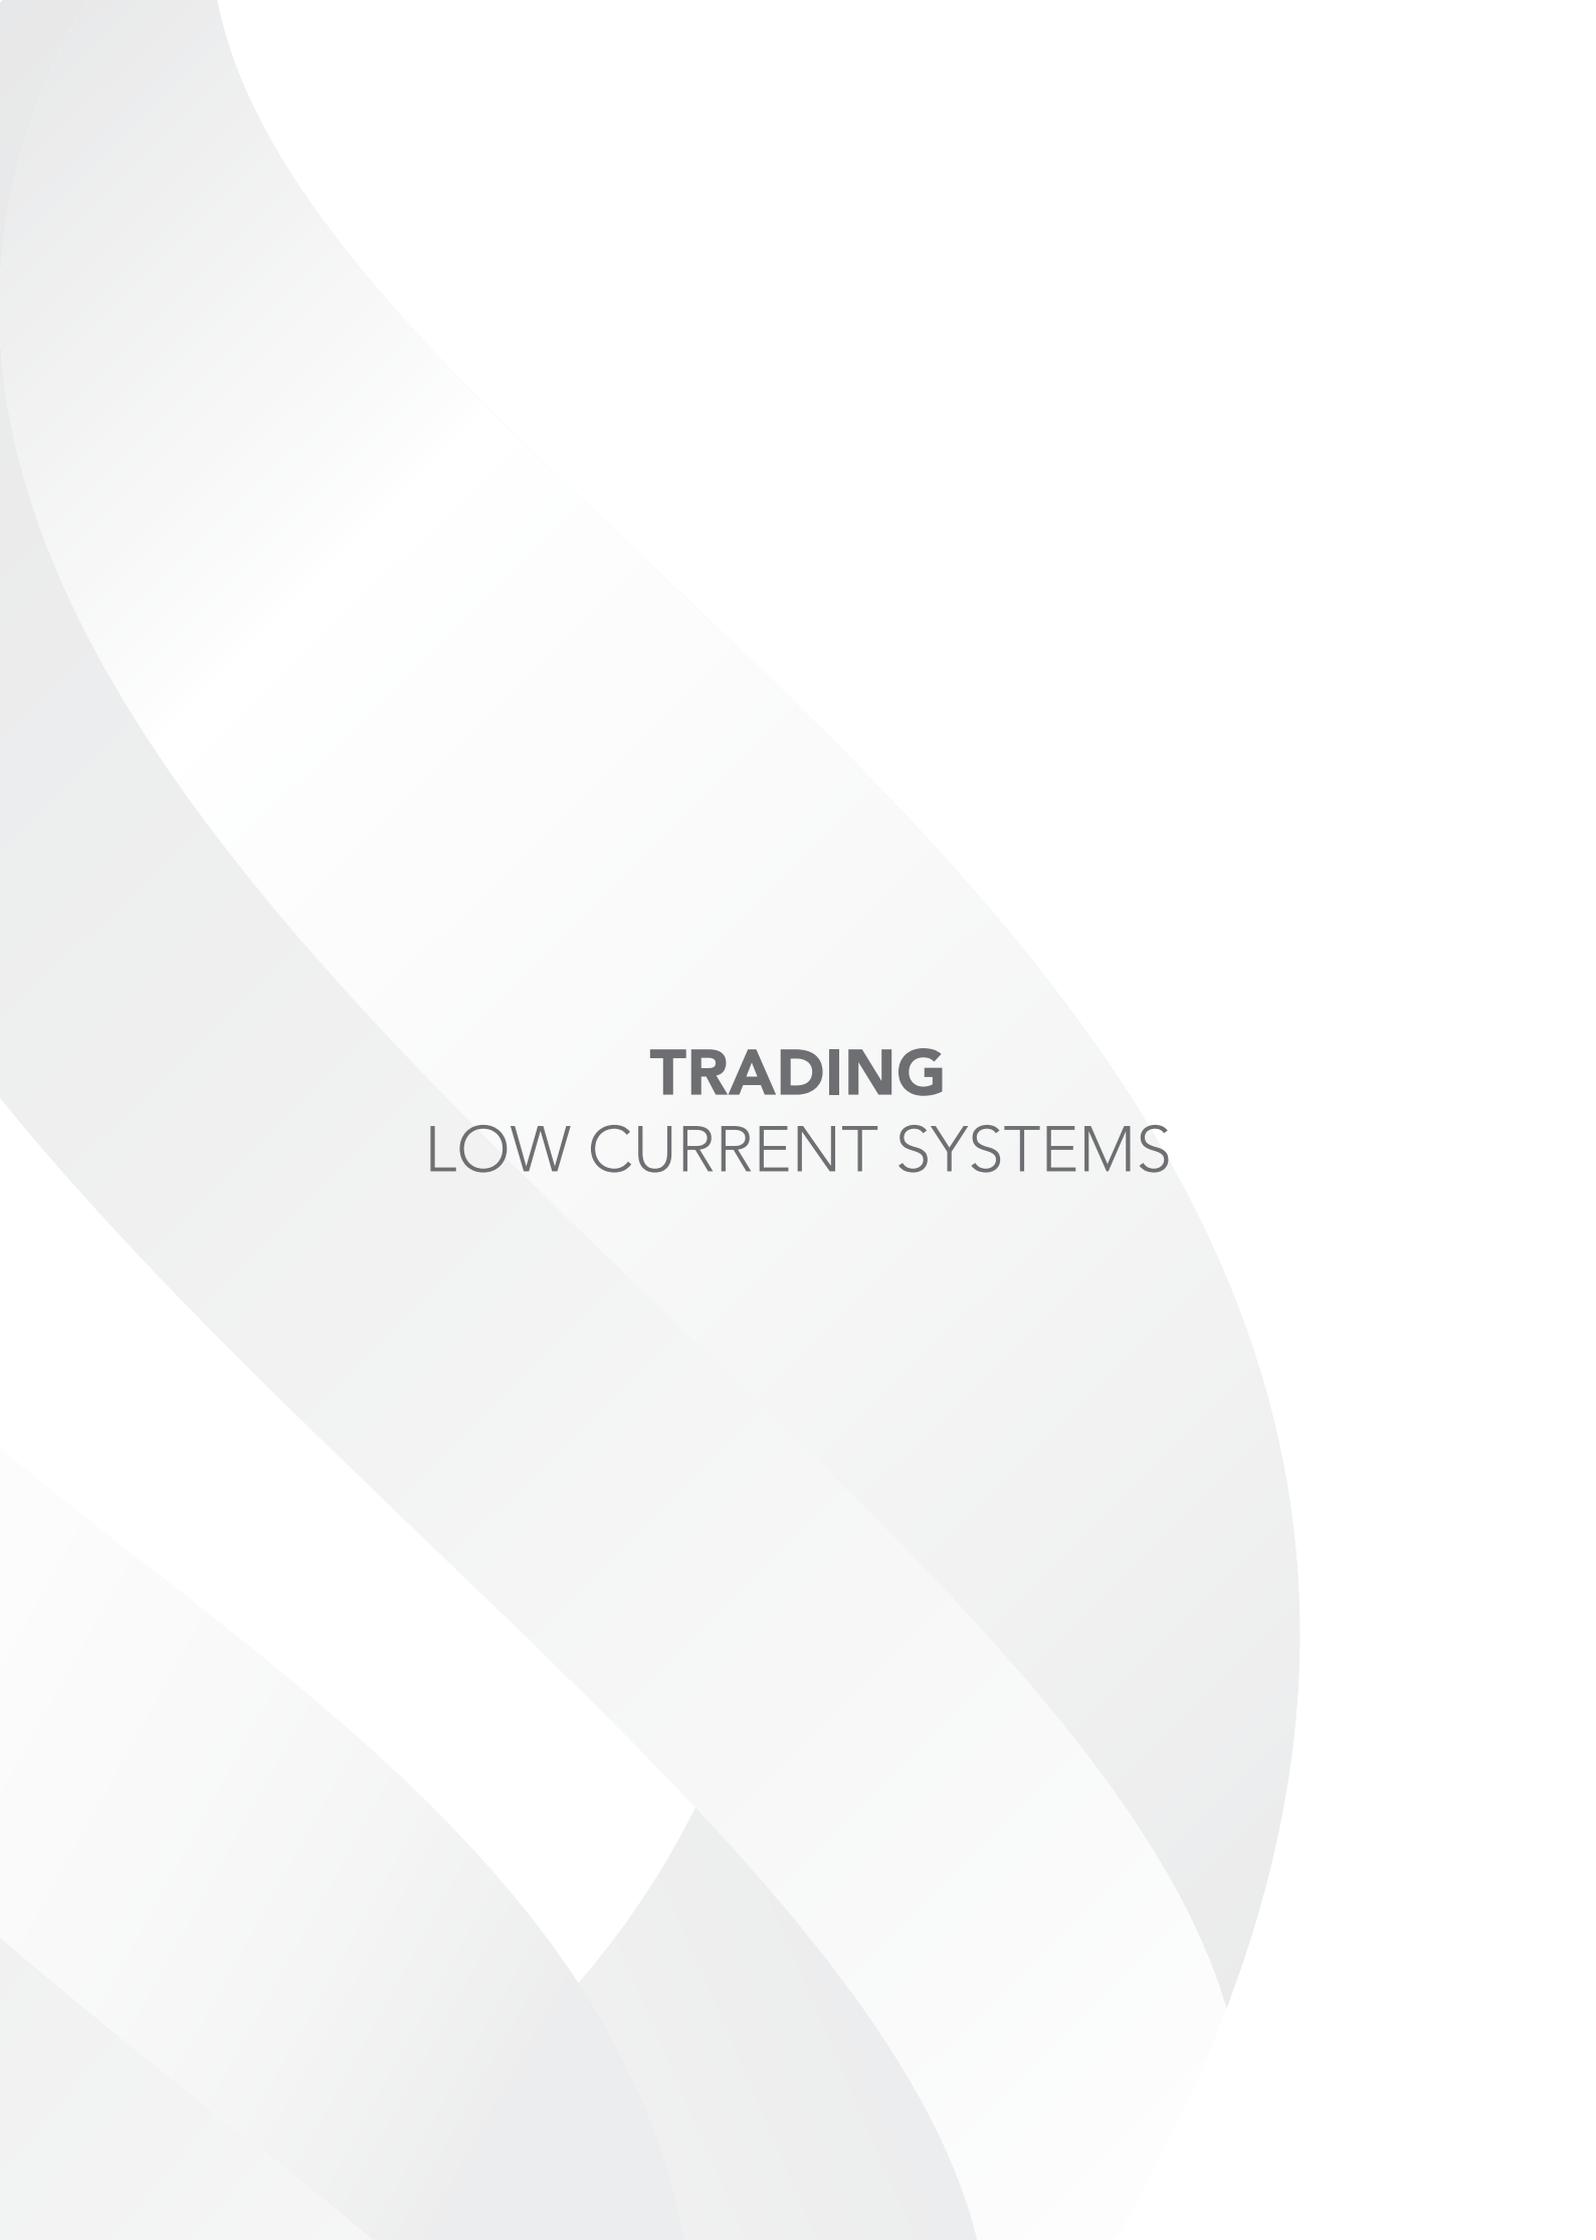

- Malleable Iron, Threaded
- AWWA/BS Compliant, UL Listed FM Approved

Grooved Fittings

- Ductile Iron Material
- ASTM Compliant, UL Listed FM Approved
- Painted And Galvanized

Partners

TRADING
LOW CURRENT SYSTEMS

TRADING LOW CURRENT SYSTEMS FIRE ALARM AND DETECTION SYSTEMS

JETEE, proudly as the fire and safety leader in Jordan, installed the very first Conventional Fire Alarm System back in 1981, and also the very first Addressable Fire Alarm System in 1992.

30+ years have passed and JETEE still provides the latest and most up to date technology in Analogue Addressable and Conventional Fire Alarm Systems in addition to special detection systems ranging from Flame, Linear Heat and toxic Industrial Gases detection.

Analogue Addressable Fire Alarm Systems:

- Capacities Up to 10 Loops Per CPU, 24 Loop Per Panel
- 250 Devices Per Loop
- Capacities of Up to 64 Networkable Panels
- UL Listed FM Approved, EN54 Option Available

Conventional Fire Alarm Systems:

- 2,4,6,8, 16 & 24 Zone Capacities
- 25-30 Device Per Zone
- EN54 and UL Approvals

Flame, Linear Heat & Gas Detection:

- Special Hazard Alarm Systems with UL,FM, ATEX Approvals

Partners

				
---	---	---	--	---

TRADING LOW CURRENT SYSTEMS PUBLIC ADDRESS AND VOICE EVACUATION SYSTEMS

JETEE provides the best solutions with full capability to meet rising demand on Public Address and Voice Evacuation Systems through Speakers, Microphones, Mixers and Amplifiers.

JETEE systems offer a big range from low capacities to Professional paging and evacuation systems for complexes, malls, hospitals and industrial projects with the latest technology and the ability to be connected over network with wide areas and different connection possibilities.

Partners

TRADING LOW CURRENT SYSTEMS ACCESS CONTROL MANAGEMENT

JETEE provides the latest and most up to date LV systems including Access Control and Time Attendance System. Access Control systems provide a convenient TCP/IP-based internet network that can perfectly support various entry control functions whether it's just a simple one-door access control system or even a more complicated type.

Controllers

1. Stores up to 500,000 cardholders
2. Stores up to 100,000 events
3. Special controllers for elevator control

Software

1. Up to 8,000 Multi-Server
2. Can Support app for smartphone and other mobile devices
3. Video Integration Compatible with Third Party Device

Partners

TRADING LOW CURRENT SYSTEMS **LIGHTNING PROTECTION AND EARTHING SYSTEMS**

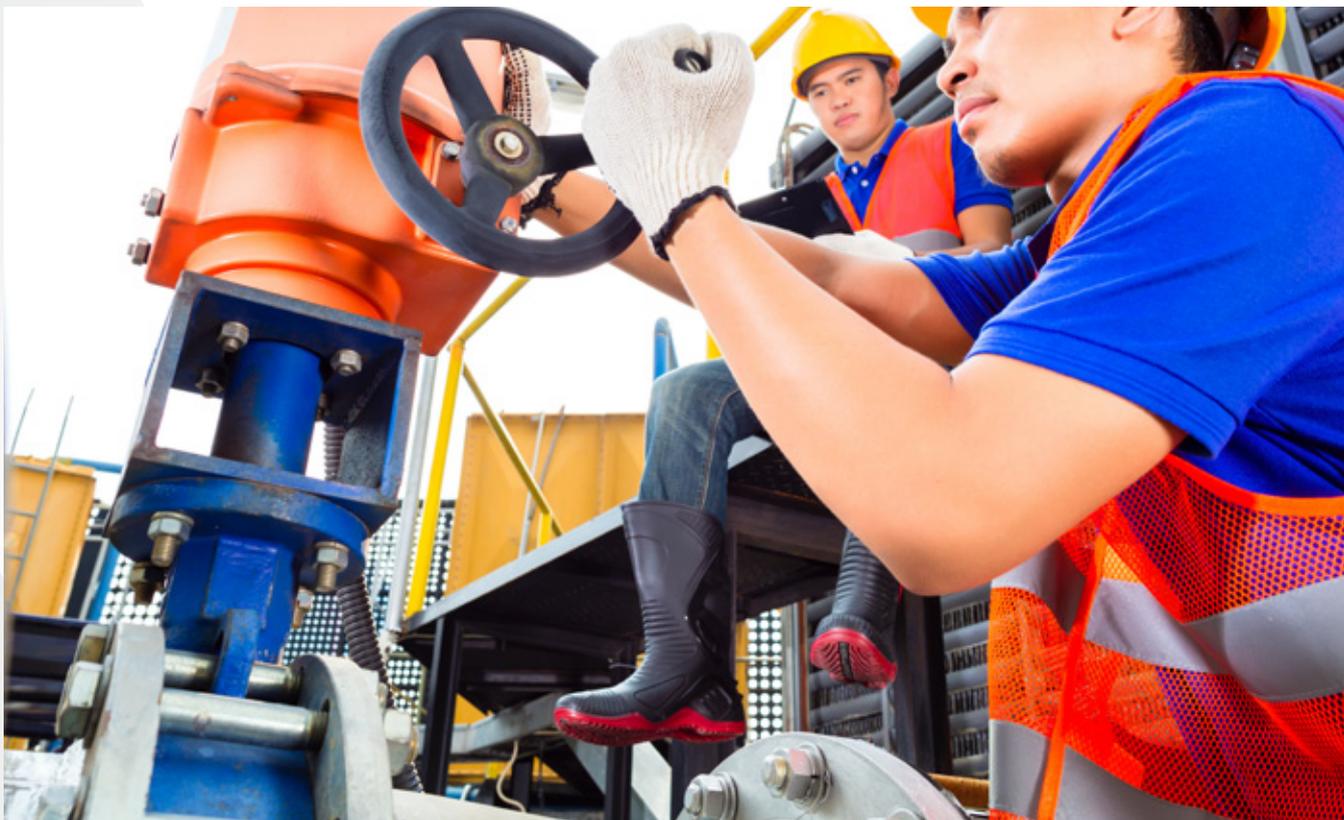

Jetee covers the full range including Earthing Material, Safety Equipment, Surge Protection, Exothermic Welding, Lightning Protection rods and accessories to fully protect any facility and the electrical components inside against Lightning and its subsequent results along with all other types required for protection.

Partners

MAINTENANCE

As important as fire detection & protection systems are to building safety, it's equally important to make sure they stay in proper operating condition and operate at the time of need.

Our Maintenance, Service & Inspection Division provides high-level expertise for inspection, testing and maintenance of customers' life safety systems in accordance with latest industry standards including NFPA and ISO9001:2008.

Our professional staff provides a broad range of services for commercial, retail, office, educational, light industrial and multi-unit facilities. These services include:

- Inspections and testing of existing fire protection systems.
- Maintenance of existing sprinkler, suppression or alarm systems.
- Modification of fire protection systems to make them code-compliant.
- 24/7 emergency service and repair.
- On-site training for use/proper operation of systems.

Our maintenance services include the following Systems:

Our expertise covers all types of fire protection systems, from sprinklers to fire suppression to alarm/detection.

A- Fire Fighting & Suppression Systems Covering:

1. Wet and dry sprinkler systems, pre-action and deluge systems.
2. Standpipes & Hydrants, Fire Hose Reel & Hose Rack Systems.
3. Fire pumps.
4. Fire Suppression Systems including FM 200; Novec 1230; CO2 systems; Commercial Wet Chemical Kitchen Hood systems; Halon; all clean agents.
5. Water mist.
6. Fire extinguishers.

B- Fire Alarm & Detection Systems Covering:

1. Conventional Fire Alarm Systems.
2. Addressable Fire Alarm Systems.
3. Linear heat detection & optical flame detection Systems.
4. Air sampling systems.
5. PA & Voice Evacuation Systems.
6. Emergency lighting & exit lighting systems

MANUFACTURING

MANUFACTURING

The Region's Trusted Safety Provider:

Since 1981, customers have looked to JETEE for innovative solutions to help protect their investments, buildings and workers to reduce fire risks.

This demand motivated JETEE to enter the manufacturing sector and build its state of the art factory in compliance with latest standards in the fire industry and introduce quality fire protection products.

Our products currently include Fire Hose Reels and Cabinets, Fire Extinguishers, Fire Pumps and Diesel Driven Engines. A lot of new and interesting products are currently under development.

JETEE products are tested for unsurpassed quality, and gained the most respectable certifications in the industry like LPCB and UL.

JETEE line of products is available through authorized distributors worldwide.

Continuous Product Development:

A dedicated research and development engineering department provide a continuous flow of important product innovations to keep our product offerings in line with changing industry demands and up to the latest standards.

Customer Support:

Prompt and knowledgeable answers to all customer concerns along with informative literature and technical assistance assure customer satisfaction.

Quick Delivery:

Quick delivery is the standard at JETEE with the introduction of the latest manufacturing machinery, quality procedures and utilizing the latest ERP software. JETEE provides also quality packing and shipping materials to reduce shipping damages.

ENGINEERING SERVICES, PROJECT CONSULTANCY & TRAINING

JETEE is one of the few specialist firms in the region to offer a complete and integrated range of professional services that are tailored to individual client's requirements for protecting their facilities. Offering a broad range from pre-contract to post contract services makes it possible for JETEE to provide an in depth approach to project management, thus ensuring maximum quality, continuity and efficiency in the execution of project mandates.

JETEE Engineering Services include:

- Full Design & Engineering Drawings
- Estimation Services including Generate Bill of Quantities and reviewing the Drawings according to project Specification and standard requirements
- Build Project Specification according to national and Local Standards
- Value Engineering Services
- Providing technical Calculations and reports including: Hydraulic Calculation, Voltage Drop Calculation, Power Consumption Calculation, Audio Acoustic and Wattage Calculation & Cable sizing Calculation
- Project Management Services
- Technical Support
- Audit Reports
- Training and Development

JETEE Consultancy Services cover the following fields:

A- Fire Fighting & Suppression Systems Including:

1. Wet and dry sprinkler systems, pre-action and deluge systems
2. Standpipes & Hydrants, Fire Hose Reel & Hose Rack Systems
3. Fire pumps
4. Fire Suppression Systems including FM 200; Novec 1230; CO2 systems; Commercial Wet Chemical Kitchen Hood systems; Halon; all clean agents
5. Water mist
6. Leak detection
7. Fire extinguishers

B- Fire Alarm & Detection Systems Covering:

1. Conventional Fire Alarm Systems
2. Addressable Fire Alarm Systems
3. Linear heat detection & optical flame detection Systems
4. Air sampling systems
5. Integrated Voice Evacuation Systems
6. Emergency lighting & exit lighting systems

ENGINEERING SERVICES, PROJECT CONSULTANCY & TRAINING

C- Integrity Testing:

Fire Suppression Systems Enclosures Integrity Testing

D- Public Address and Voice Evacuation System Covering:

1. Paging and Sound System
2. Voice Evacuation System

E- CCTV & ACCESS CONTROL SYSTEM:

1. IP & Analog CCTV System
2. Access Control and Time Attendance System

F- Earthing & Lightning System
